Question: Short Answer/Essay
Please give any comments or suggestions about the GSI.

1. Patch was a great GSI. Knew the material extremely well and was very helpful. I looked forward to his discussions and if I couldn't make my regular one, made sure to go to another discussion where he was GSI. He was friendly and approachable outside of class.

2. none recommended

3. Patch was very good and always available to help. Also easy to approach.

4. Patch has really helped me a lot in learning the course despite I only have gone to his discussion sections throughout the semester. Thank you very much!! Keep the great work up!!

5. great

6. No Response

7. Great guy, funny, approachable, and super smart. Fun to talk to outside of class too! Run Patch Run!

8. Patch put a lot of effort into helping the students online as well as in class. Mainly it was pat who would reply to discussion board questions. At time, pat would go a little to technical or talk extremely fast, making it difficult to follow while he was explaining something.

9. No Response

10. Sometimes he went into too much detail when talking about the simple things, but when the material got a bit harder, he sort of glossed over it.

11. Very helpful with the homework and explained how to do things in a manner that was easy to understand.

12. Gave good supporting information and examples during discussion.

13. He was great! Thanks Patch!

14. Patch made E77 more exciting by the way he talked.

15. Patch was always well prepared, but his great enthusiasm made his section so valuable.

17. good

18. Not only is Patch very knowledgeable about Matlab, but he is an teacher who can relay that knowledge effectively. Patch is also always prepared, and tries his best to make sure his students have all the resources necessary to do well on the midterms. The only one request that I have of Patch is that he be a bit more friendly. He's not unfriendly, its just he would seem a bit more approachable if he smiled at others or encouraged his students. Overall, Patch is an excellent GSI whose presence I really benefited from this semester.

19. I would take a class JUST BECAUSE Patch was the GSI.... seriously! I don't even care what the class was about, he's just awesome!

20. No Response
